

EP HENRY®

HARDSCAPING COLLECTIONS
SOURCEBOOK

Across four generations and 115 years, my family has sought to make the best quality products for our customers. We know that the quality of our products only matters if it benefits those we serve. Today our goal is simple: to bring friends and families together through amazing outdoor living spaces.

Every customer has a unique vision for their perfect outdoor living space, which is why EP Henry offers a broad assortment of distinctive pavers and walls that set the standard for beauty, quality, and durability. This year we're proud to continue our industry-leading legacy with news about several exciting innovations.

Our biggest innovation for 2018 is the new ColorTech™ line of premium pavers. These pavers capture the look of natural stone through a unique process that creates deeper, richer colors and extends color fastness and durability over time. For a premium look that's "a cut above" natural stone, ColorTech paves a new path.

Another innovation that has taken the industry by storm is our exclusive Cast Stone Wall Collection, which offers a beautiful range of colors and textures that replicate those found in natural stone. We're expanding the line to include Birch, a new on-trend color which will quickly become among the most popular in the collection.

In addition, we are excited to announce the expansion of our Imperial line, which is designed to offer a superior value to our competitors' leading products. Imperial Pavers are manufactured with the same EP Henry quality standards you'll find in all of our products, and are available in a range of some of the most popular colors and profiles in our industry.

Seeing is believing, and we strongly encourage you to see the EP Henry difference for yourself through one of our EP Henry Authorized Hardscaping Contractors® or by visiting one of our EP Henry Authorized Hardscaping Distributors®.

From my family to yours, I wish you all the best in 2018,

JC Henry

J.C. Henry III

COLORTECH™ HARDSCAPING INNOVATION

EP Henry ColorTech Pavers are an exciting new innovation which provides a premium look that's "a cut above" natural stone. The secret is a proprietary formula used in the manufacturing process that intensifies the beauty of our pavers while creating a protective coating that is resistant to staining, acid rain and UV rays. Pavers with ColorTech serve to enhance and protect your investment.

EP HENRY®

CAST STONE WALL COLLECTION

Cast Stone Wall Collection

With over 70 unique face patterns and textures, EP Henry's patented Cast Stone Wall Collection truly replicates the beauty of natural stone. While it has a premium look, our Cast Stone Walls are typically much more affordable than traditional stone walls. They come in both single and double sided options to create limitless design possibilities and add dimension to any outdoor living space. If you're looking for the premium look of natural stone, no other wall product on the market comes closer than our patented EP Henry Cast Stone Walls.

For more information on the Cast Stone Wall Collection, turn to page 69

SYMBOL KEY

ECO PERMEABLE PAVERS
With our eco-friendly paving solutions, you can be sustainable and have a beautiful project.

DO NOT USE FOR VEHICULAR APPLICATIONS
It is not recommend to use these pavers for residential driveways.

DO NOT USE COMPACTOR
Do not use a plate compactor on Devonstone or Lastra products.

BUDGET FRIENDLY
With EP Henry's cost-saving line of pavers and walls, you won't have to sacrifice quality and beauty to have the installation of your dreams. They are available in our most popular shapes and sizes and in colors that are equally as beautiful as other pavers and walls.

DON'T SCUFF THE PAVERS
EP Henry recommends the use of a protective pad between the plate compactor and the paving stones to prevent surface damage during installation. EP Henry will not be held responsible for compaction scuffs or burns on pavers.

COLOR DISCLAIMER
Photographic reproduction, print and online screen resolutions do not always present color precisely. For these reasons and to ensure your complete satisfaction with your EP Henry product, we recommend that you visit your local EP Henry Authorized Hardscaping Distributor® or ask your contractor for samples before making a final decision.

GROUT TECHNIQUES

Different grout techniques will impact the appearance and coverage of Cast Veneer Stone. For example, Ledgestone may be laid in a dry stack or mortared, the latter yielding more coverage due to the mortar joints.

For more irregularly shaped profiles, like Pennsylvania Field Stone, use a standard or overgrout joint method. Likewise, colored versus natural (gray) mortar will affect the finished look as well.

EP Henry recommends installation methods and guidelines from the Masonry Veneer Manufacturers Association.

HOW TO MAKE YOUR DREAM A SUCCESS

Here are some tips for how to successfully navigate the path to making your dream outdoor living space a reality.

INSPIRATION

PREPARATION

INSTALLATION

Phase 1 - Inspiration

TIP 1 PICTURE YOUR PURPOSE

Think about what you'd like to achieve with your new outdoor living space. Do you want a space to relax in the sun, or a place to extend the season? Is your goal to get the kids away from computer and phone screens and into the backyard more? The answers to these questions will determine which features will deliver on your dream.

TIP 2 GET INSPIRED

Even if you already have some ideas about features you want, it's always smart to find inspiration and explore ideas from pictures of finished installations. This catalog is a great place to start. For more ideas and inspiration, visit ephenry.com and view our extensive design galleries.

TIP 3 MAKE YOUR "DREAM" LIST

With your vision clear, it's time to make a list of all of the features you'd love to include in your outdoor space. A fire pit for late-night family s'mores? A space to dine with your spouse? A pool for summer parties with your friends and neighbors?

HERE'S A HANDY LIST OF FEATURES TO CONSIDER:

WALKWAY
Create a beautiful entry from the front yard

PATIO / SEATING AREA
Host gatherings of friends and family

CAST STONE WALLS
Enclose your space and create outdoor seating

GRILL, BAR OR KITCHEN
Entertain outdoors throughout the year

FIREPLACE / FIRE PIT
Make Fall and Winter more comfortable

POOL
Create a fun way for family and friends to play

HOT TUB
Decompress and unwind

SHADE LOUNGE
Escape to a cool place on hot days

FOUNTAIN FEATURE
Add the relaxing sight and sound of water

RETAINING WALLS
Add structure and style to your garden

DRIVEWAY
Create a dramatic entrance to your home

CAST VENEER STONE
Create an impressive look for your home itself

Once you have an idea of what you want your dream space to look like, certified EP Henry Authorized Hardscaping Contractors® and Distributors are trusted resources for helping you translate your vision into reality.

Phase 2 - Preparation

GET A CONTRACTOR RECOMMENDATION FROM A TRUSTED SOURCE

Finding the right contractor is a critical step in the process. Take the guesswork out of finding a professional by using one of our recommended EP Henry Authorized Hardscaping Contractors through EP Henry Project Services. With hundreds of pre-qualified installers, we make it easy to get matched with proven professionals that are the right fit for your needs across a range and scope of services. **We're so confident in our EP Henry Authorized Hardscaping Contractors that we warranty both our hardscaping products and their installation when you choose one from our registered network** (see page 143 for more details on our policy and instructions on how to activate this coverage). Visit ephenry.com today and click on "Find a Contractor" at the top of the page to get connected with an EP Henry Project Consultant who will help you find someone that's right for your project.

THINK ABOUT YOUR BUDGET RANGE

By having a sense of the budget range that you're comfortable with, contractors can provide realistic designs and workarounds that will help you maximize your space.

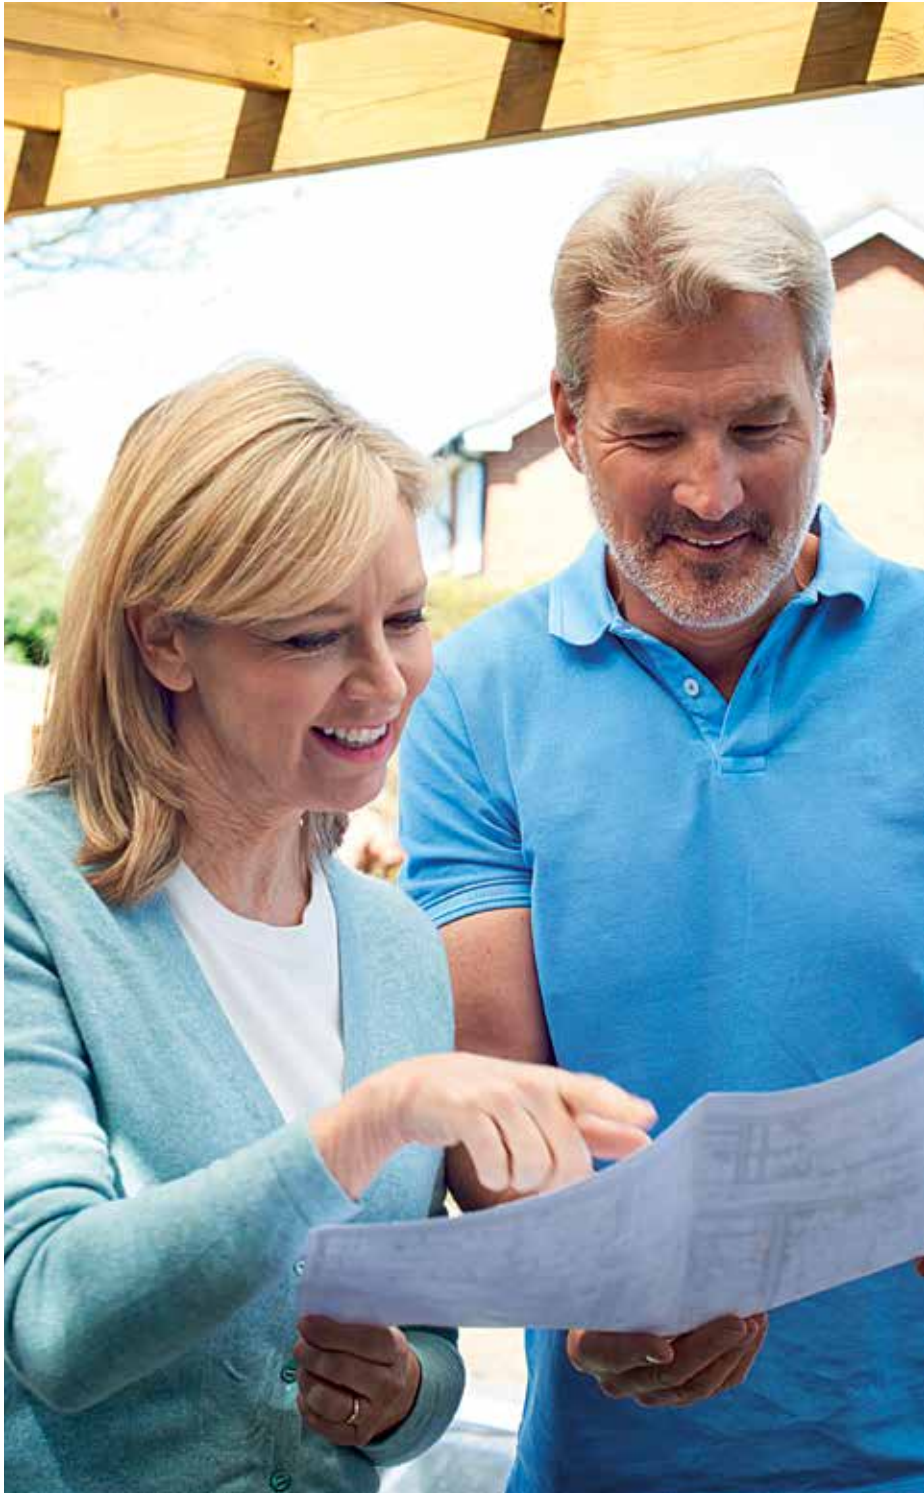

Phase 3 - Installation

BRINGING YOUR DREAM TO LIFE

Once your plan is set and you've selected a contractor, it's time for the work to begin. The good news is that if you've selected an EP Henry Authorized Hardscaping Contractor, the quality of that person's work has already been vetted and you can trust that the job will go smoothly.

SHARE YOUR SUCCESS

Once the work is complete, we invite you to upload your photos of your new outdoor living space on Facebook and tag us @EPHenryUSA. We love to see homeowners' dream spaces come to life and look forward to seeing yours!

OUTDOOR LIVING DESIGN TIPS

Before choosing your materials, it's important to consider various design elements that will impact the look and feel of your outdoor space. Experts, such as EP Henry Authorized Hardscaping Contractors® and Distributors, are excellent resources when choosing which products are right for your home.

COLOR

COLOR
It's important to choose an outdoor color scheme that will pair well with your home's exterior. EP Henry offers an incredibly wide array of color options to complement your home. If you fall in love with a particular color, it's easy to explore which products and shapes it's available in by visiting the product section of ephenry.com. Consistency of color is also very important. Through our unique Colorist system, EP Henry is able to achieve unsurpassed color blending within each paver for beautiful, natural looking results.

SHAPE

SHAPE
Consider how paver shape will interact with the architecture of your home. Different pavers pair well with a traditional home vs. a contemporary one. Similarly, the perfect paver pairing for a brick home may differ from one with siding. Some paver styles lend themselves to creating structured patterns, while others are installed in a random layout. EP Henry Authorized Hardscaping Contractors are great resources for exploring patterns and color options for your favorite paver shapes.

SCALE

SCALE
The size of the area being paved can often influence which paver works best. A small patio with large pavers may make a space look smaller, while a large area with small pavers may look too busy. Some larger-scale pavers also don't allow for vehicular traffic. Ask your contractor for advice on which paver size makes the most sense for your project.

PROFILE

PROFILE
Do you prefer a more modern or a more rustic design feel? The texture of the materials you choose will evoke a mood that should match the aesthetic of your home. For example, a weathered look choice such as Coventry Aged Pavers will provide a more rustic vibe, while Bristol Stone Smooth will create an ultra-smooth, contemporary look. Visit your local EP Henry Authorized Hardscaping Distributor® to explore paver profiles and find the one that's right for you.

BORDERS AND ACCENTS

BORDERS AND ACCENTS
Accent colors and borders add visual interest and can draw the eye throughout the expanse of your outdoor space. Changing a color, pattern, or paver style can even create the impression of a separate space, such as a dining area, within an overall patio design.

Are you ready to start your path toward the outdoor lifestyle of your dreams? Visit us at ephenry.com for even more inspiration, to find an EP Henry Authorized Hardscaping Contractor, or to locate a distributor near you.

EP HENRY – QUALITY FOR LIFE™

At EP Henry, we're on a mission to bring friends and families together through amazing outdoor living spaces. Nowhere is our commitment to quality, and our commitment to you, better represented than in the exclusive EP Henry products below, and the industry-leading warranty that backs them up.

When it comes to quality, seeing is believing. Before you finalize your design decisions, we encourage you to see the EP Henry difference with your contractor or check out samples for yourself at any EP Henry Authorized Hardscaping Distributor®.

THE EP HENRY COLOR DIFFERENCE

From timeless classics to the latest trends, no one offers a better selection of exclusive colors than EP Henry. Looking to find the perfect pairing of pavers with Cast Stone Walls? No need to worry. Our color systems coordinate, allowing anyone to design with confidence.

CAST STONE WALL COLLECTION

EP Henry's patented Cast Stone Wall Collection is the leading innovation in the market for replicating the beauty of natural stone. This collection is typically much more affordable than a traditional natural stone wall and comes in both single- and double-sided options. Explore limitless design possibilities and add dimension to any outdoor living space with the premium look of natural stone.

COLORTECH™ PAVERS

EP Henry ColorTech Pavers are an exciting new innovation which provides a premium look that's "a cut above" natural stone. The secret is a proprietary formula used in the manufacturing process that intensifies the beauty of our pavers while creating a protective coating that is resistant to staining, acid rain and UV rays. Pavers with ColorTech serve to enhance and protect your investment.

IMPERIAL COLLECTION

The Imperial line offers a truly exceptional value. Imperial Pavers and Walls are manufactured with the same EP Henry quality standards and lifetime warranty you'll find in all of our products, and are available in a range of the most popular colors and profiles in our industry. We believe that the choice between Imperial and the competition is clear when you see the difference up close.

FREE EP HENRY PROJECT SERVICES®

With our exclusive Project Services program, you are matched with a personal Project Consultant who will help guide you through your project and assist you with obtaining an EP Henry Authorized Hardscaping Contractor® from our network of trained professionals. Our consultants make the process easy and stress-free by matching you with professionals that best suit the scope of your project.

QUALITY FOR LIFE WARRANTY

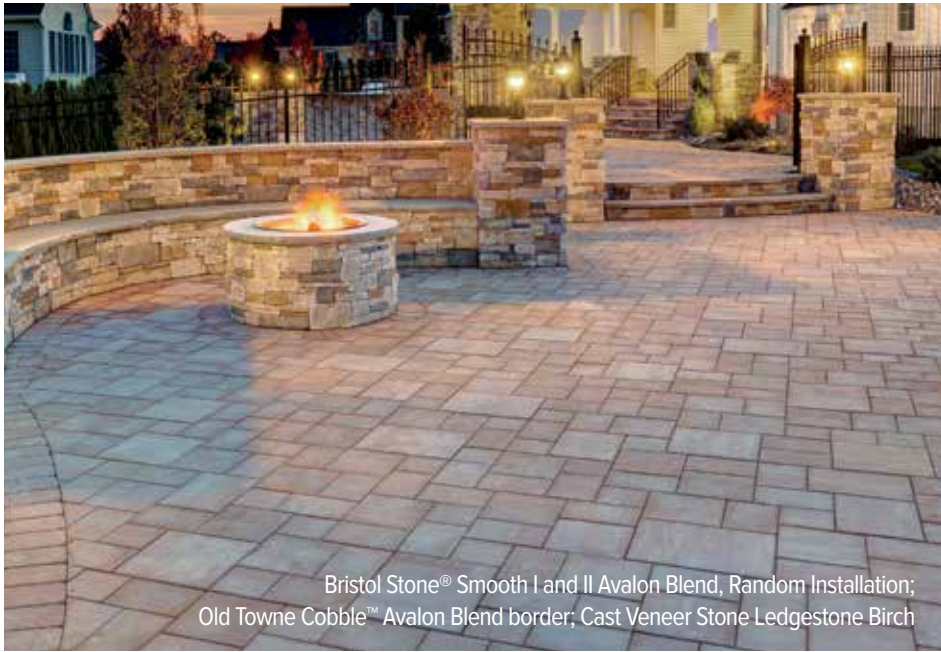

We know that your dream project is an important long-term investment meant to enhance the quality of your life and improve the value of your property. That's why we engineer our products to stand the test of time and back them with a warranty that sets the bar within our industry. When you choose EP Henry, you can make your decision with confidence knowing that our 115 year old company has your back. For more information on our warranty coverage, please visit page 143 in this catalog.

SOCIETY HILL BRICK STONE™

Society Hill Brick Stone Penbrook Brown, 45° Herringbone Pattern

NOTE
Due to its ridges and textured surface, Society Hill Brick Stone is more prone than a smooth surface paver to be affected by polyhaze. Please be sure to adhere to the polymeric sand manufacturer's installation instructions. EP Henry recommends the use of HP NextGel polymeric joint sand (see p. 138).

To ensure your complete satisfaction with your EP Henry product, we recommend that you visit your local EP Henry Authorized Hardscaping Distributor® or ask your contractor for samples before making a final decision.

ECO™ DETAILS

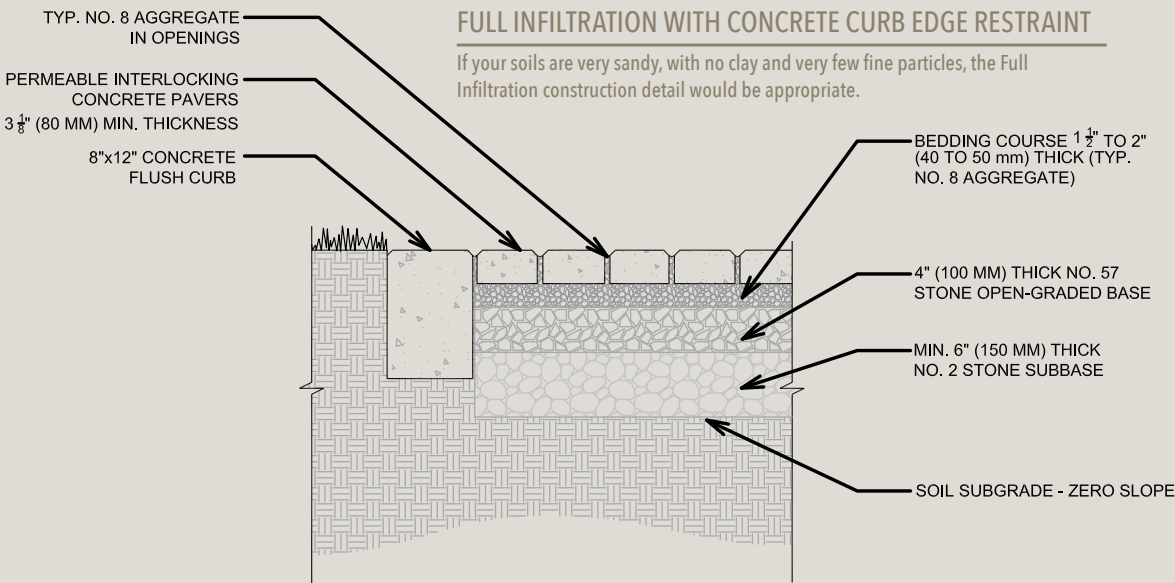

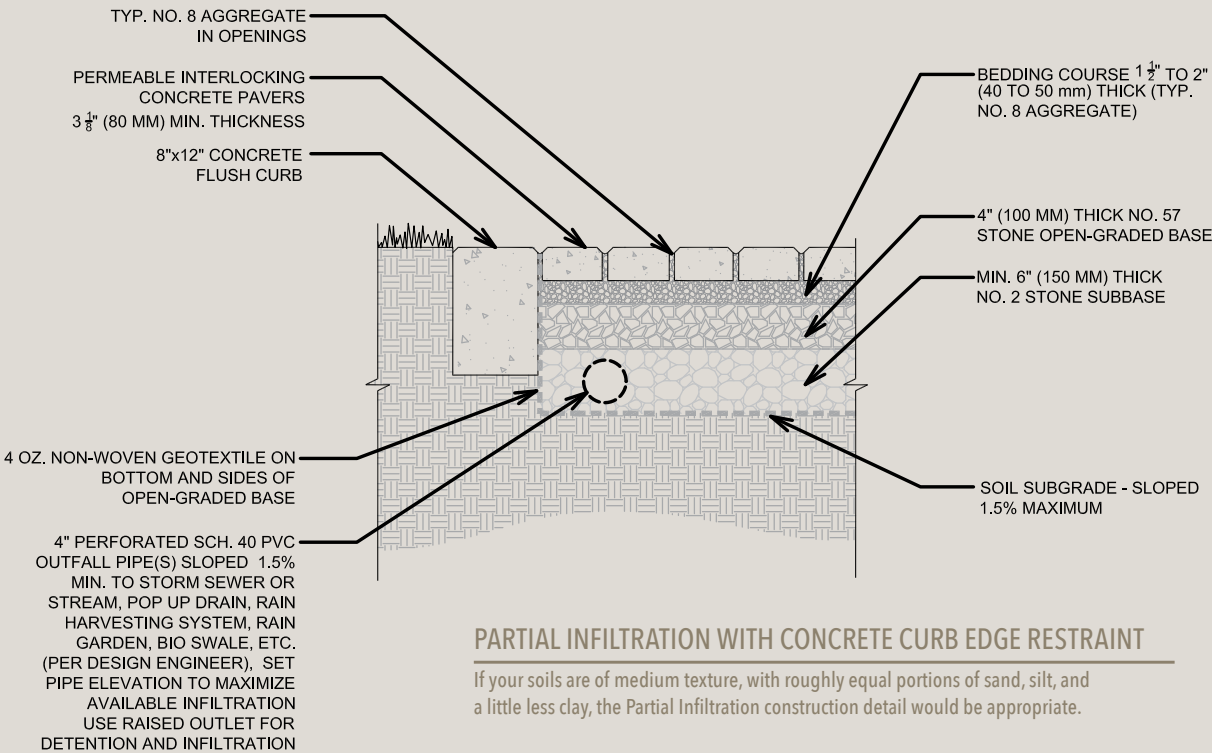

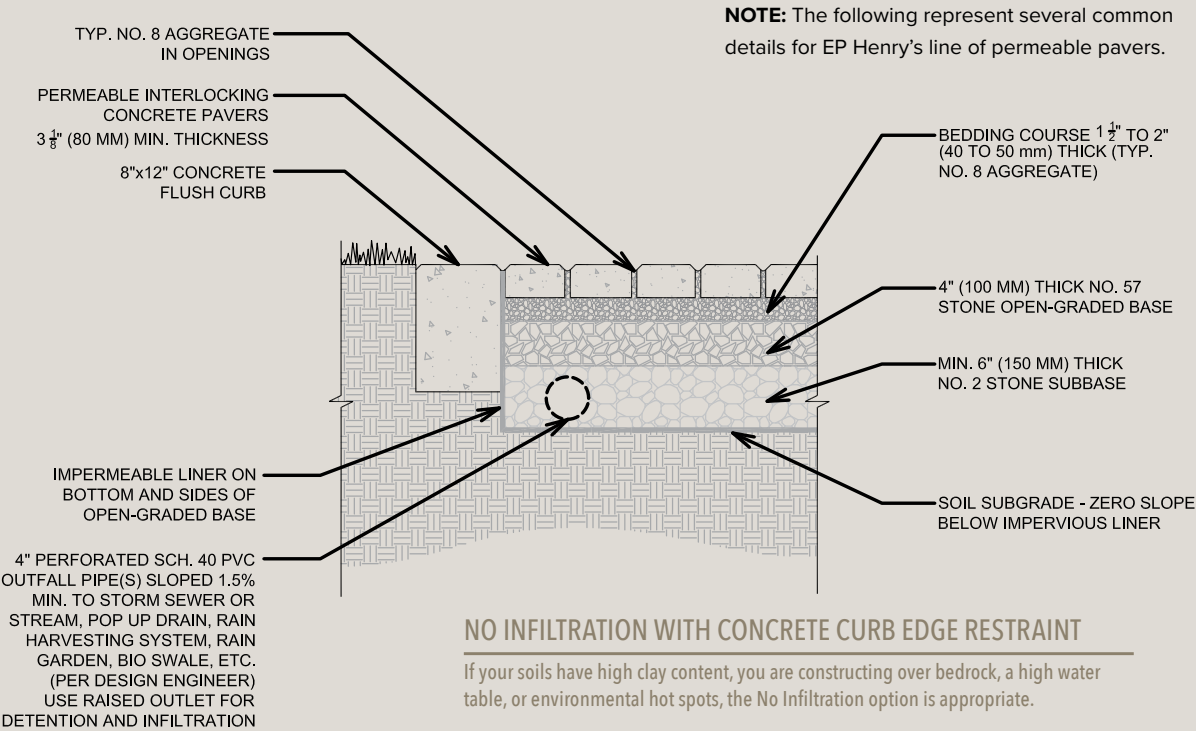

Before undertaking a permeable pavement installation, it's important to choose the construction detail that's appropriate for your soil type and design requirements.

Determining the on-site underlying soil type (clay, silt, sand) is the first step in choosing the construction detail that's appropriate for your project. Although the surface infiltration rates of EP Henry's ECO™ line of permeable pavers are extremely high, the infiltration rates of the underlying soils determine how quickly captured water will infiltrate into the ground.

Ideally, the quantity of water that enters a permeable paver system should infiltrate/exfiltrate your permeable paver system within 24-48 hours. However, it's possible that your underlying soils cannot absorb water rapidly enough due to the composition of the soil. In cases where your soil cannot absorb the water received in a given precipitation event within 24-48 hours, conveyance movement via drainage pipes to additional storage or infiltration areas may be appropriate.

In basic terms, clay can absorb the least amount of water, and sand can absorb the most. It is important to note that when using the Partial or No Infiltration construction details, a drainage pipe is specified which must have positive flow away from the aggregate base. This drainage pipe can be directed to auxiliary on-site infiltration trenches, rain gardens, bio-swales, detention basins, or nearby storm pipes. Municipal approval is required for any stormwater "tie-ins."

NOTE
2⅜" (60mm) thick pavers may be used in pedestrian applications. No. 2 stone subbase thickness varies with design. Consult ICPI's permeable interlocking concrete pavement manual for charts.

TURF PAVER

Turf Paver

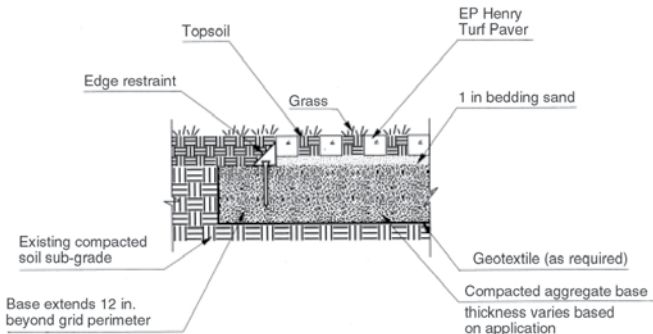

This unit is 3 1/8" thick.

SIZE (WxL)	15 3/4" x 23 7/16"
PCS PER SF	.38
SF PER CUBE	73
PCS PER CUBE	28
LBS PER CUBE	1,678
LBS PER PIECE	60
% OPEN AREA	40

NOTE:
Turf Paver units should be spaced 1/8" apart, installed with core marks up and are not recommended for vehicular traffic. For frequently traveled vehicular areas, ECO™ Cobble® and ECO™ Pavers are the recommended permeable pavement solutions.

EP Henry recommends consulting a Professional Engineer for commercial applications.

MONOSLAB

Monoslab

This unit is 4 1/4" thick.

SIZE (WxL)	15 5/8" x 23 1/2"
PCS PER SF	.37

CAST STONE WALL

Walls are a wonderful way to add beauty and dimension to any outdoor living space. EP Henry's patented Cast Stone Wall Collection truly replicates the beauty of natural stone. While it has a premium look, our Cast Stone Walls are typically much more affordable than natural stone walls. If you're looking to add the look of natural stone to your yard, no other wall product on the market comes closer.

NOTES

Many of EP Henry's products are created using a blend of several fine pigments and it is normal to find a range of color(s) most predominant from unit to unit. For best dispersion and to achieve a natural range of the colors throughout your project, be sure to draw from multiple bands and cubes at a time.

ISOKERN FIREPLACES

Isokern Standard Fireplace with Cast Stone Wall Face Shells Aspen

Isokern Magnum Fireplace with Cast Veneer Brick Chestnut Hill

EARTHCORE ISOKERN MODULAR FIREPLACES

For over 25 years, Earthcore's Isokern Systems have been the leader in safe, lightweight, easy to install fireplace systems and are backed by a Lifetime Warranty against manufacturer defects.

Outdoor Kitchen Collection

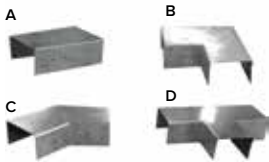

Cast Stone Wall Face Shells Breckenridge; Lastra AXI Brown Chestnut

ISOPANEL MODULAR KITCHENS

Isokern has streamlined the construction of building the classic culinary outdoor kitchen for quick assembly. Using our Isokern Panels and Clips, building a beautiful, durable and practical outdoor kitchen is easier than ever. The IsoPanels will also support the Iso'ven for added options to construction.

ISOKERN PANELS

- **Dimensions per panel:** 2'w x 34"h x 3"d
- Each panel weighs only 100 lbs, so they're easily moved when assembling your new outdoor kitchen components.

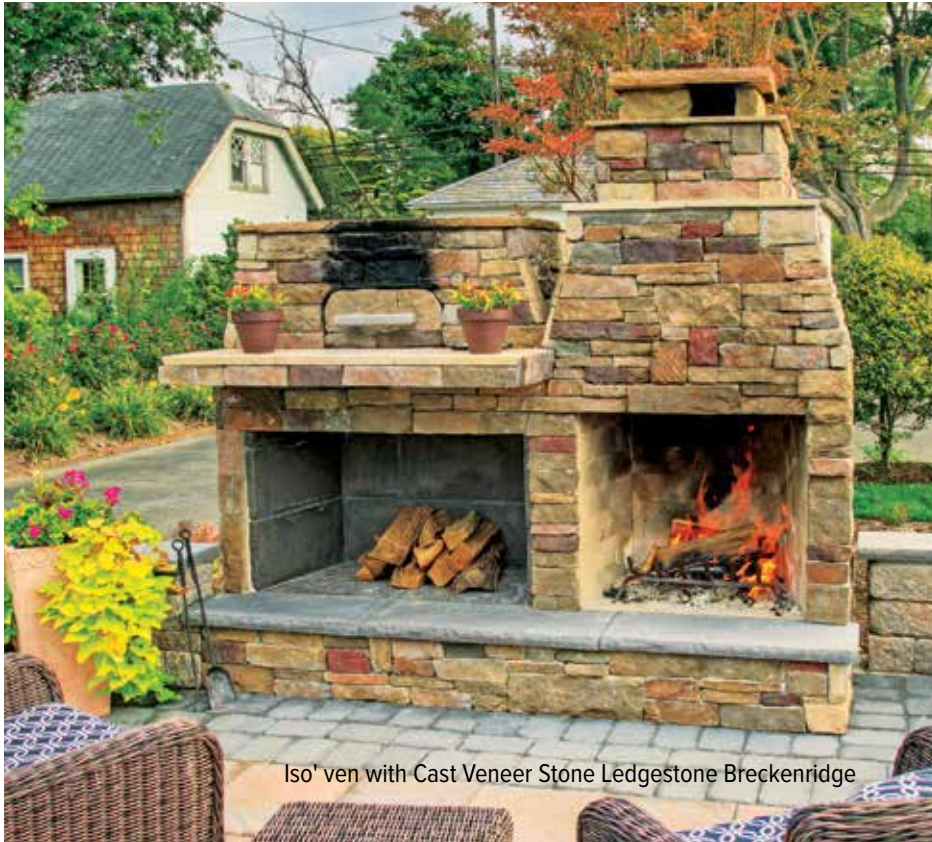

CLIPS

- **Use:** Slide the appropriate clip over the junction of 2 adjacent panels for holding them together while the mortar is applied.
- **Options:** A. Straight B. 90° C. 45° D. T clip.

ISO'VEN WOOD BURNING PIZZA OVENS

Iso' ven with Cast Veneer Stone Ledgestone Breckenridge

Iso' ven with Cast Veneer Stone Ledgestone Silverton

ISO'VEN & EP HENRY'S CAST VENEER STONE

There's nothing better than a real wood burning oven. Introducing the Earthcore Iso'ven Wood Burning Oven, the user-friendly, remarkably affordable outdoor wood burning pizza oven made from our exclusive volcanic material. Created for easy installation, the quick-fire Iso'ven heats up to 800 degrees in an hour. The Iso'ven Wood Burning Pizza Oven comes with everything you need to get started. Perfect for 12" pizza, bread, wings and more. Includes: Proprietary Oven Liner, Refractory Mortar, Cooking Surface, Thermometer and Starter Fire Kit.

All Isokern fireplaces, pizza ovens and modular kitchen kits can be made "personally" yours by customizing it with EP Henry's beautiful Cast Veneer Stone or Cast Stone Wall Face Shells, the closest match to real stone, at a fraction of the cost.

SEE PAGE 36 FOR CAST VENEER STONE COLOR AND STYLE OPTIONS

TALBETOP OVEN WITH OPTIONAL STORAGE SPACE

Fires strengthen the bonds between friends and family. Recognizing this, Earthcore developed the ideal companion for your Iso'ven Wood Burning Pizza Oven — our Table Top Oven with Optional Storage Base. Adding a new dimension to backyard dining, it allows you to choose the height of your Iso'ven in relation to the rest of your outdoor kitchen or living space.

OPTIONAL STORAGE:

Ample room for wood, pizza peels, aprons, cooking tools and more.

OPTIONAL HOOD:

Following the classic approach of traditional wood burning ovens, the Iso'ven is designed to vent through the front. But at Earthcore, we believe customization creates satisfaction. So if you prefer a flue, we now offer a hood for Iso'ven designs, giving you the freedom to finish it in your own personal style.

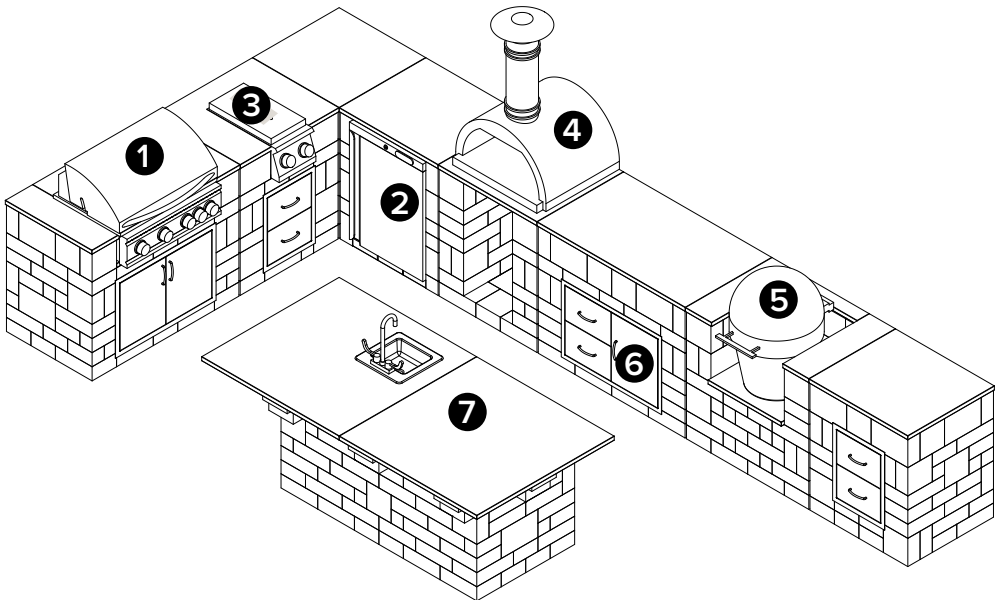

CREATE THE PERFECT OUTDOOR KITCHEN

PRE-MEASURED-CUT-PACKAGED-KITS

The Kitchen is a series of individual cabinet kits that come complete with everything you need to build, including pre-cut block and granite tops sized to fit, reinforcements, and more! Depending on the complexity, most kitchens can be built in a day or less. Build your kitchen all at once or add new features over time. Because of their modularity, expanding your outdoor cooking and entertaining space is easy to do at any time.

ACCESSORIES

EP Henry offers a complete line of cleaning and sealing products from TechniSeal® to maintain the beauty of your pavers.

POLYMERIC SAND FOR PAVER JOINTS

HP NEXTGEL™ POLYMERIC SAND

- False and wide joints
- Heavy-sloped and high-traffic areas
- High-humidity areas and pool decks

SMART SAND

- New Haze-Free technology
- For concrete paver joints from ⅛” to 1”
- Superior strength
- Driveways, patios and walkways

CLEANERS

PROFESSIONAL-GRADE OIL & GREASE REMOVER

- Dislodges deeply set petroleum-based products, motor and hydraulic oil

DIRT & GREASE CLEANER

- Removes motor oil and grease

RUST REMOVER

- Removes stains caused by steel, rusted metal objects and fertilizers

PAINT, TAR AND RUBBER REMOVER

- Dissolves paint, tar or bitumen, rubber and chewing gum

ORGANIC STAIN REMOVER

- Effectively removes moss, mildew, dead leaves, wine, blood and non-greasy food stains

PAVER RESTORER

- Removes cement and mortar jointing haze

PAVER PREP / EFFLORESCENCE CLEANER

- Dislodges efflorescence and ground-in dirt
- Prepares pavers prior to sealant application

ECO-STRIPPER

- Removes most stains, sealants and coatings without affecting the surface

SEALERS

NATURAL LOOK MATTE FINISH PENETRATING (IN)

- Preserves the natural look of pavers
- Ideal for slip-prone surfaces

CLEAR LOOK SEMI-GLOSS FINISH (EV)

- Preserves the original color of pavers
- Ideal for driveways, patios and walkways

COLOR BOOST MATTE FINISH PENETRATING (CB)

- Enhances the color of pavers
- Ideal for slip-prone surfaces

WET LOOK GLOSS FINISH (WLS)

- Enhances the color of pavers
- Ideal for driveways, patios and walkways

SUREFOOT I ANTI-SLIP GRIT FOR WATER-BASED PROTECTORS

- Mixes easily with Protector without changing its appearance
- Highly recommended for pool decks and sloped driveways, steps, low porosity substrates, etc.

NULOOK® TINTED PROTECTOR FOR CONCRETE PAVERS SEMI-GLOSS FINISH

- Colors pavers
- Water based
- Choice of 4 rich colors

JOINT STABILIZING PROTECTOR (JS) NATURAL LOOK SEMI-GLOSS FINISH

- Preserves the original color of pavers
- Ideal for permeable systems

WR7

EP Henry offers Techniseal WR7 natural look, water-based sealant for concrete retaining walls. It helps prevent efflorescence and damage caused by de-icing salts while preserving the natural look of your wall.

PRODUCTS FOR DEVONSTONE WETCAST SLABS

WET-CAST PAVER PREP

- Prepares wet-cast pavers prior to sealant application

PROTECTOR FOR WET-CAST PAVERS (WC) NATURAL LOOK MATTE FINISH — PENETRATING

- Preserves the natural look of wet-cast pavers

RG+ CONCRETE ADHESIVE

- Low-VOC formula
- Ultra-adherent on dry, wet or frozen surfaces
- Elastomeric resin-based compound — remains flexible
- Ideal for the construction of retaining walls

Polymeric Sand Haze

Polymeric Haze from the use of polymeric joint sand may appear on your concrete products if the sand was not removed from the surface of the paver properly. This does not, in any way, affect the integrity of the product or your installation. The hazing will weather away naturally with time and rain. It can be removed with a specialized cleaner. It is advised that you contact your contractor or the manufacturer of the polymeric sand used for advice on recommendations.

EP Henry accepts NO responsibility or liability for this occurrence.

STRUCTURE BOND ADHESIVE

- | | |
|--|--|
| <ul style="list-style-type: none">• Super-strength hardscape foam adhesive• Designed for use with Cast Stone Wall and other wall products• Precise delivery - No mess, no waste• 8 minute bond time | <ul style="list-style-type: none">• Adheres to wet masonry products• Adjustable bead size• Performs on all construction materials• Fireproof and waterproof• One 24 oz. can is equivalent to five 10.5 oz. tubes |
|--|--|

SEK SUREBOND
PAVER EDGE RESTRAINT

The purpose of Edge Restraint products is to restrain pavers’ lateral motion. Without a proper Edge Restraint System, pavers are prone to shifting. EP Henry offers the Snap Edge Paver Restraint System.

ADVANTAGES OF THE SNAP EDGE RESTRAINT SYSTEM:

- One-piece system does it all; straight, curves, or even a complete radius, without waste
- An 8’ piece transports easily and requires no extra connectors
- Open base design allows for grass growth along paver edge, creating a strong yet invisible edge
- Patented snap and spike-together ends for a secure connection and extra support
- Rugged injection-molded plastic ensures the strongest edge designed for vehicular and patio/walkway applications

ADHESIVE

EP Henry offers the following adhesive for wall applications:

SUREBOND PAVER BOND

- High strength structural grade adhesive
- Durable formula withstands extreme wear and tear, including heavy vehicular traffic
- Sets quickly in only 10 minutes
- Freeze-thaw stable
- Naturally shims

TENCATE MIRAFI

SEPARATION FABRIC

Mirafi® 500x geotextile fabric is recommended for use with all paver installations. Its primary purpose is to keep the base material from working its way into the soil underneath, thus reducing the possibility of settling.

This product, which costs only pennies per square foot, is an inexpensive insurance policy for your pavement.

GEOGRIDS

EP Henry offers the highest quality geogrids for SRW applications.

MIRAFI® GEOGRID

1XL 20 SQUARE YARD	4’ X 45’	ROLL
2XT 33.3 SQUARE YARD	6’ X 50’	
3XT 200 SQUARE YARD	12’ X 150’	
5XT 200 SQUARE YARD	12’ X 150’	
8XT 267 SQUARE YARD	12’ X 200’	

UX MESA GRID

UX1100 121 SQUARE YARD	4.36’ X 250’	ROLL
UX1400 121 SQUARE YARD	4.36’ X 250’	
UX1500 96.9 SQUARE YARD	4.36’ X 200’	
UX1600 96.9 SQUARE YARD	4.36’ X 200’	
UX1700 96.9 SQUARE YARD	4.36’ X 200’	

Please note: Mesa UX Grid must be used on all Mesa SRW applications.

STRATA
SLEEVE-IT® SYSTEM

WHEN YOUR WALL NEEDS A FENCE

The Sleeve-It® System is a patented, code-compliant, fence post anchoring system that integrates stable fence footings into the support structure of walls while the retaining wall is being constructed. This unique fence system is pre-engineered and pre-designed so that the usable real estate at the top of a retaining wall is not wasted. Using the system as part of the Segmental Retaining Wall (SRW) eliminates a 3 foot offset requirement for rails and fences that are added after wall construction, reducing specifier liability and associated costs with building-code compliance. Sleeve-It® also offers a below grade engineered design that provides superior safety in a cost-effective solution.

KERR LIGHTING

Create beauty and instill pride of ownership by adding the finishing touch of Kerr Lighting for pavers, retaining & seat walls, pillars & steps and more!

PAVER LIGHTS

LED WALL, STEP & PILLAR LIGHTING

WALLTER™ AND CORNELIUS™ LED WALL, STEP & PILLAR LIGHTING

Wallter and Cornelius Hardscape Lights by Kerr Lighting are designed to blend in with your hardscape design. They provide an unrivaled combination of energy efficiency, durability, and brilliant light quality that you’ve come to expect from Kerr Lighting. Featuring the latest developments in LED technology, these lights offer an evenly distributed warm-white color, long life for low maintenance costs, and continuous performance under all weather conditions.

The sleek, compact fixtures minimize their impact on your hardscape design. Made from a durable polycarbonate plastic, they will not corrode or weather like other materials. Because the fixtures are seamless, the light beam is controlled with no seepage around the edges. Use Wallter and Cornelius as your solution for a variety of outdoor settings including under wall caps, pillar caps, steps, and outside pillar corners.

INDUSTRY EXCLUSIVE LIFETIME PRODUCT WARRANTY AND LIMITED INSTALLATION WARRANTY

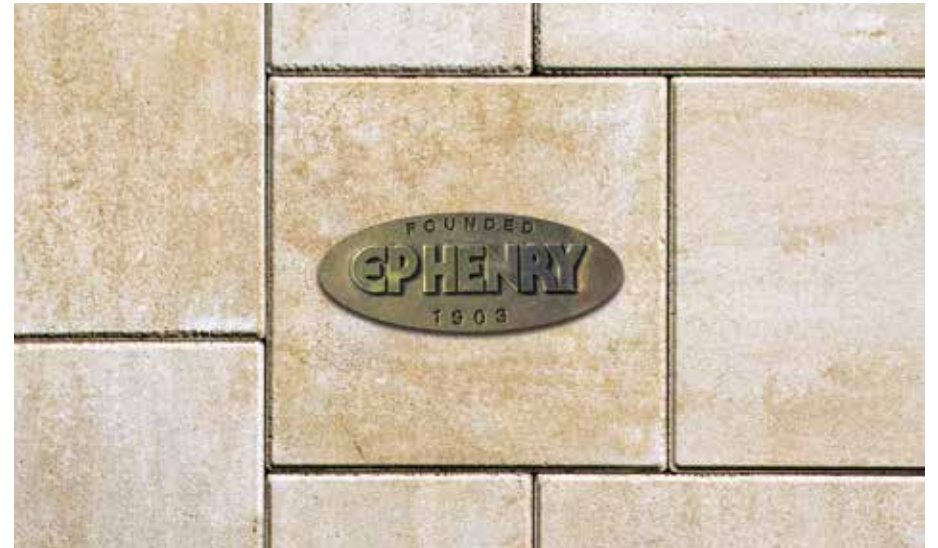

Because we believe that the best warranty is one that you never use, we build quality into every product. We are so confident in our products that we offer a Lifetime Warranty on the structural integrity* of our paving stones and wall systems for residential use. At no cost to you, EP Henry will replace paving stones and wall system products whose structural integrity is found to be defective under normal use when properly installed according to EP Henry standards and guidelines (labor excluded). We also offer an industry exclusive Limited Installation Warranty on projects installed by an EP Henry Authorized Hardscaping Contractor®, referred through our Project Services team.**

For complete terms and conditions of the warranty, visit ephenry.com.

*A defect in “structural integrity” means the inability of a properly installed and maintained paver or wall product to perform the function for which it was designed due to defects in material. A defect in “structural integrity” does not mean a function caused by improper installation, workmanship or efflorescence.

**Homeowners must register their project through EP Henry Project Services. Proof of purchase required.

Cast Stone Wall and Cast Veneer Stone products are covered under a separate warranty; please visit our website for details.

PRODUCT NOTES

READ PRIOR TO INSTALLING ANY PAVER OR WALL PRODUCT

If you believe there is an issue with product style, color, or quality, do not install it and please contact your distributor immediately. Save all cube tags and provide to the distributor or manufacturer’s representative who comes to the job site. INSTALLATION OF PRODUCT IS DEEMED ACCEPTANCE. No claims or returns on installed product will be allowed.

EFFLORESCENCE

Efflorescence is a whitish, powder-like deposit common on concrete and masonry products which will normally disappear over time with natural weathering. According to the Interlocking Concrete Pavement Institute (ICPI), it will typically stop developing within 18-24 months. Although it may present an aesthetic concern, efflorescence will not affect the structural performance of pavers or wall systems. Efflorescence is a natural occurrence for which EP Henry accepts neither responsibility nor liability. For more information, please visit: www.icpi.org, www.ncma.org, www.masonryinstitute.org, or www.bia.org.

POLYMERIC SAND HAZE

Polymeric haze from the use of polymeric joint sand may appear on your pavers if the sand was not removed from the surface of the pavers properly. This does not in any way affect the integrity of your pavers or the installation. The haze will weather away naturally with time. If you wish to remove it with a cleaning product, it is recommended that you contact your distributor or the manufacturer of the polymeric sand used for advice and product recommendations. EP Henry accepts NO responsibility nor liability for this occurrence.

Please see p.138 for more information.

DE-ICING

While no concrete product is truly de-icing salt proof, EP Henry Pavers — due to their high strength and low absorption rates — are more resistant to de-icing salts than poured concrete, asphalt and pavers that utilize inferior materials. However, misuse of de-icing products can, over time, lead to damage. EP Henry recommends the Interlocking Concrete Pavement Institute’s guidelines to limit exposure to de-icing materials. For more information visit icpi.org.

COLOR

EP Henry Hardscaping products are made from natural materials and variations in shade can be expected. Additionally, many of our colors are achieved through a random mixture of several colors and the presence of any of these colors will vary from one unit to another. It is recommended that the installer draw from multiple cubes of material during installation to disperse any color range more uniformly. The end user of the material (home or business owner) should make their selection from current physical product samples that show the range of color.

DON'T SCUFF THOSE PAVERS!

EP Henry recommends the use of a vibrating plate compactor with a protective pad to prevent surface damage to the pavers during installation. EP Henry will not be responsible for compaction scuffs or burns on pavers. **PLEASE NOTE**, some pavers and all Devonstone slabs should not be compacted using a vibrating plate compactor.

Look for this symbol  on product pages for restrictions.

Bristol Stone Smooth II Pewter Blend 16, Random Installation; Double Sided Cast Stone Wall and Cast Stone Wall Face Shells Adirondack

NEXT STEPS

Whether you are looking to add a new front walkway to increase your curb appeal or planning an awe-inspiring outdoor living space, beginning a construction project can be a bit overwhelming at first.

We get it.

It's a big decision and you want it done right. We can help with the groundwork. In this fast-moving world of automation, sometimes you just need to talk to a live person, one-on-one. That's why we have a full-time Project Service team to take your call and answer your questions.

Give us a call.

We'd love to learn about your project. We can help you find experienced EP Henry Authorized Hardscaping Contractors® in your area so you can begin discussing design ideas and getting quotes that fit your space and budget.

We take it a step further.

Because our goal is to provide you with the best product and ensure you get the best finished project, we have experts at every level to support our distributors and contractors with Technical and Product Installation assistance.

We've got you covered.

We are so confident in our products that we offer a FREE Lifetime Warranty on the structural integrity of our paving stones and wall products for residential use. That's saying a lot for a company that began in 1903. Take advantage of our industry-exclusive Limited Installation Warranty on projects installed by an EP Henry Authorized Hardscaping Contractor, referred through our Project Services team.

Get started!

Call us at 800-44-HENRY (800-444-3679) or visit ephenry.com/contact and an EP Henry Project Services team member will help you go from inspiration to installation.

“My husband and I have decided to choose EP Henry purely based on the care and attention that we have received from their Project Services Team.

“I was living on the West Coast while in the process of building a home with a prominent homebuilder in Pennsylvania. During the final stages, it came time for me to choose the walkway and the landscaper suggested looking at EP Henry pavers. I emailed them for a catalog and a Project Services team member called me within one day and then offered to follow up once I received the catalog.

After discussing options with my husband, I called her back with some questions. I must say that I have not received this kind of outstanding customer service in a very long time. I found her patient, kind and extremely helpful. Being born and bred in NYC, I am not prone to gushing, but I am that impressed with the customer service that I have received. Furthermore, my husband and I have decided to choose EP Henry purely based on the care and attention that we have received from their Project Services Team.”

Introducing
ColorTech™

EP Henry ColorTech Pavers are an exciting new innovation which provides a premium look that’s “a cut above” natural stone. The secret is a proprietary formula used in the manufacturing process that intensifies the beauty of our pavers while creating a protective coating that is resistant to staining, acid rain and UV rays. Pavers with ColorTech serve to enhance and protect your investment.
